RDO|MMS User Manual

Rural Development Organization Monitoring and Management System

Version 2.0 | Iringa Region, Tanzania

This manual explains how to use RDO|MMS for daily monitoring, management, reporting, and administration tasks. It is intended for staff, managers, finance officers, and system administrators.

1. Introduction

RDO|MMS is a web-based system for rural development organizations. It helps users register beneficiaries, manage projects, create plans, track budgets and expenses, generate reports, and collaborate through notifications and approval requests.

- Access the system using a modern browser such as Chrome, Firefox, Edge, or Safari.
- Use your registered email and password to sign in.
- Your role determines which modules and actions you can access.

2. Getting Started

2.1 Sign In

- Open the system landing page and click Sign In.
- Enter your email address and password.
- After successful login, the dashboard opens automatically.

2.2 Registration

- New users can register from the Sign Up page.
- Complete all required fields including name, email, role, and department.
- New accounts may remain pending until approved by an administrator.

2.3 Password Reset

- Click Forgot Password on the sign-in page.
- Enter your registered email address.
- Open the reset link sent to your email and set a new password.

2.4 Dashboard Overview

- The dashboard shows summary statistics, charts, and recent activity.
- Use the sidebar to open modules such as Projects, Beneficiaries, Finance, and Reports.
- Use the profile menu at the top-right for account settings, help, and logout.

3. User Account and Profile

3.1 My Profile

- Open My Profile from the user dropdown menu.

- Review your name, email, role, department, and organization details.
- Click Edit, update your information, then click Save Changes.

3.2 Profile Photo

- Open My Profile and choose Change Photo.
- Select a JPG, PNG, or WEBP image.
- Save the profile to apply the new photo.

3.3 Change Password

- Open Change Password from the user dropdown.
- Enter your current password and new password.
- Click Update Password to save the change.

4. Beneficiary Management

4.1 Register Beneficiary

- Go to Beneficiaries > Register Beneficiary.
- Enter beneficiary name, gender, category, location, and contact details.
- Submit the form to save the record.

4.2 Beneficiary List and Search

- Open Beneficiary List to view all registered beneficiaries.
- Use Search and Filter to find records by name, category, district, or status.

4.3 Service Tracking

- Go to Beneficiaries > Service Tracking.
- Record services delivered to a beneficiary such as training, inputs, or support visits.
- Each service entry includes date, type, provider, and description.

5. Project Management

5.1 Create Project

- Go to Projects > Create Project.
- Enter project name, description, location, budget, dates, and team members.
- Submit the project to save it in the system.

5.2 Track Project Status

- Open Projects > Status Tracking to monitor progress.
- Update project status such as not-started, ongoing, delayed, or completed.
- Review all projects from Projects > All Projects.

5.3 Project Documents

- Open Documents > Project Documents.
- Upload proposals, contracts, reports, and supporting files.

- Organize documents by project, category, and date.

6. Planning and Monitoring

- Create monthly, quarterly, and annual plans from the Planning module.
- Add objectives, activities, budgets, and responsible staff.
- Submit plans for approval when required.
- Use Progress Monitoring to update activity progress and challenges.
- Use Targets and Indicators to track measurable outcomes.
- Upload evidence files from Upload Evidence where available.

7. Finance Module

7.1 Budget Allocation

- Go to Finance > Budget Allocation.
- Create allocations by department, quarter, and fiscal year.
- Submit allocations for approval when required.

7.2 Expense Tracking

- Go to Finance > Expense Tracking.
- Record expenses with date, category, department, amount, and reference.
- Approved and pending expenses can be reviewed for reporting.

7.3 Financial Reports and Variance Analysis

- Open Financial Reports to review spending summaries.
- Use Variance Analysis to compare planned budgets against actual expenses.

8. Reports

- Open Reports > Generate Reports.
- Select the report type and date range.
- Preview the report and export to PDF or Excel when needed.
- Review report history for previously generated reports.

9. Notifications and Collaboration

- Open Notifications to view system alerts, messages, and approval requests.
- Use Messages to communicate with other users inside the system.
- Review Approval Requests and approve or reject submitted items.
- Check unread notifications from the notification icon on the dashboard.

10. User and Role Management

- Administrators can open Users > All Users to manage accounts.

- Use Add User to create new staff accounts.
- Use Role Management to review permissions by role.
- Review Activity Log to monitor important user actions.

11. System Settings

- General Settings: configure application preferences.
- Organization Profile: update organization name, logo, and contact details.
- Notification Settings: manage alert preferences.
- Email SMTP: configure outgoing email for password reset and notifications.
- Data Backup: export and restore database backups.
- System Logs: review system events and activity records.

12. Roles and Access Control

RDO|MMS uses Role-Based Access Control (RBAC). Each user is assigned a role that determines which modules can be viewed, created, edited, or approved.

- Executive Director / Admin: full system access.
- Department Manager: department oversight, planning, approvals, and reports.
- Staff / Field Officer: operational data entry for beneficiaries and projects.
- Accountant: finance modules and financial reports.

13. Troubleshooting

- If login fails, confirm your email, password, and account approval status.
- If a page does not load, refresh the browser and confirm WAMP/server is running.
- If password reset email does not arrive, check SMTP settings or mail outbox.
- If a module is missing, your role may not have permission to access it.
- For additional help, open Help & Support from the user menu.

14. Support Contacts

- Email: support@rdomms.org
- Phone: +255 123 456 789
- WhatsApp: +255 987 654 321
- Support Hours: Monday - Friday, 8:00 AM - 6:00 PM EAT
